

To the Board,

It is upsetting to me that something so simple has been turned into such chaos. I just bailed on teaching my summer session class because of ridiculous re-naming of sessions.

I requested to teach the first summer session, which intuitively starts at the beginning of summer, when Spring ends. I just found out though that by requesting 1st summer session, I was actually requesting what would normally be considered 2nd summer session because the first summer session was renamed "Extended Spring"!! Are you kidding me?!!

I support "Shared Governance" and the work of the Calendar Committee. I lack confidence in our current administrative condition. And now I'm super bugged that I won't have the income our family planned on because I'm unavailable for the renamed session. Argh!

Sincerely,

Erika Catanese
